Facts About Us

Jamex uPVC is a Trade Mark of Kelvin Craft Industries . It was Established in the year 2014, Kelvin Craft Industries is a leading business conglomerate and is profoundly dedicated to excel-lence in production and designs of its products, with a purpose of offering its clients more space, which would provide them with a unique experience. We have our own brand named Jamex and has collaborated with Dimex- German uPVC windows brand.

Mission

Our central goal is to enhance customer knowledge of uPVC among our clients and teach them on its advantages. It is our mission to give our clients with the most eco-friendly and fair items conceivable, permitting them to design the homes and workplaces of their dreams.

Vision

Our vision is to turn into India's driving uPVC maker while likewise laying down a good foundation for ourselves in the global market. To compete on the global market, we've always focused on collaborating and commemorating global technology with our products.

Our Manufacturing Plant

Why Us?

We are the most Trusted uPVC Windows and Doors manufacturers in India. German uPVC windows, Expert in specializing in the design, manufacture and installation of uPVC windows & door systems.

Weather Proof

Resistant to all weather conditions, compared to Timber windows. Alternative Frames do not absorb moisture and do not alter under extreme weather conditions.

Low maintenance

Alternative Frames do not periodical repairing or maintenance. They do not rot, warp or corrode serving as more economical option in long run.

Anti-fungi, Anti-termite

u-PVC is not vulnerable to insects and termites. Its hard surface compound protects it from such invasions, and it does not degenerate like wood.

Thermal Insulators

The Alternative Frames prevents thermal bridging making insulation extremely effective. It has the option of two layered vacuumed glass panes to achieve more from air conditioning and conserves energy.

Fire Resistant

U-PVC materials used in Alternative Frames are fire resistant and do not support or enhance accidental fires unlike their timber counterparts.

Acoustic Insulator

Protection against noise pollution and higher levels of privacy is ensured. Sound insulation is increasingly become a compliance issue in many sensitive areas including hospitals.

Advantages
